Experience

Product Designer / Appwrite

Jan 2022 - Mar 2026

- **Core Product:** Played a key role in the redesign of the Console and the development of a scalable design system, ensuring consistency across the platform.
- **Feature Ownership:** Led the end-to-end design of core services including Auth, Databases, Messaging, and Sites, balancing technical complexity with user simplicity.
- **User-Centric Growth:** Conducted user interviews and usability testing to identify friction points, directly improving workflows and overall product usability.
- **Cross-Functional Collaboration:** Worked closely with engineers to ensure pixel-perfect implementation while aligning with technical constraints and requirements.
- **Marketing & Ecosystem:** Designed high-impact assets including the product blog, changelog, and marketing pages to support brand growth and engagement.

Graphic Designer / Freelance

Dec 2020 - Jun 2021

Freelance graphic designer creating print and digital materials for various clients, including Buzzr.biz.

Private Tutor / Azrieli College of Engineering

Apr 2021 - Jun 2022
