Work Experience

Product Designer / Appwrite

Jan 2022 - Present

Product Designer at Appwrite, an open-source Backend-as-a-Service (BaaS) platform used by developers worldwide. Played a key role in the redesign of the Appwrite Console and in building a scalable design system.

Designed features and interfaces across multiple Appwrite products, including Authentication, Databases, Messaging, and Sites. Conducted user interviews and usability testing to identify friction points and improve developer workflows and product usability.

In addition, designed documentation and marketing pages including product pages, the blog, changelog, and the Appwrite keyboard. Worked closely with front-end and back-end engineers to ensure designs aligned with technical constraints and product requirements.

Graphic Designer / Freelance

Dec 2020 - Jun 2021

Freelance graphic designer creating print and digital design materials for various clients, including work for Buzzr.biz. Primarily worked with Adobe Photoshop and Illustrator.

Private Tutor / Azrieli College of Engineering

Apr 2021 - Jun 2022

Private tutor assisting a software engineering student with advanced coursework and providing guidance on their final project.

Military Service

Radar Operator and Commander / Israeli Navy

2014 - 2016

Completed military service as a Radar Operator and Commander in the Israeli Navy.

Received an Excellence Recognition and a Certificate of Excellence for outstanding performance.

Education

Product Design / Codesigner

Apr 2021 - Nov 2021

Completed a UX final project involving concept development, user research, wireframing, prototyping, and usability testing. Focused on designing elegant and user-friendly product experiences.

B.Sc. in Software Engineering

2017 - 2020

Graduated with a B.Sc. in Software Engineering from Azrieli College of Engineering. Gained experience in programming with Python, Java, JavaScript, HTML, and CSS, and worked with frameworks such as React and Angular.

Awarded a certificate of excellence for the final project.
